MANUFACTURE PRODUCTS :

Sample Section: We have a complete sample section in our corporate office building where we can make samples for development and pre production samples under close observation of merchandiser. 0

35 numbers of expert sample makers are there to make samples with proper machinery.

Day Care Center: We have a day care center in the factory where the workers have the facility to keep his/her baby under 3 years of old during the time he/she is in work. There are two trained care givers to take care of the baby. This company provides foods and toys for the baby. The care givers take care of babies so that the babies feel the comfort like home.

QUALITY:

- a) We ensure the quality of the environment.
- b) We ensure the quality of the work place.
- c) We make sure the quality of the products.

The above mentioned are in whole help us to maintain the overall quality of **RAAN SPORTS KNIT WEAR LTD.**

Quality of the environment:

RAAN SPORTS KNIT WEAR LTD is situated in a industrial zone with a healthy environment. Vast expanse of greenery and the factory architecture design allows free pathways, open air space, adequate natural lighting and ensures waste disposal system.

Quality of the work place:

It is ensured that in the work place every employee will enjoy friendly environment in their work station. Harassment is strictly prohibited. Recruitment is done in a very fair way – according to experience & efficiency not by race, religion or sex. Employees of every sphere are trained on their job & responsibilities. Floors are marked properly to easy understand of way, toilets are separated by sex & those are always kept dry & bad odor free. Adequate nos. of first aid kits & safety equipment are installed. Full time Doctor in work station, Wages & benefits are being paid as per law.

Quality of the products:

Maintenance of high standards of quality of the products is our motto. No one is interested to purchase defective & un-smart apparel. Human dignity & life style are clearly exhibited by the apparels he wears. The product must satisfy the consumers in terms of beauty, attractiveness, taste, shape, design, longevity etc. Excellent quality characteristics enhance sell ability of the goods & are the keys to profitability for the manufacturer or the seller. There are three types of the quality of the products –

- a) Quality of the general acceptance
- b) Quality of satisfaction &
- c) Quality category of higher delight.

Definitely we honor our respective buyers & his requirements. To ensure our product's quality in a category of higher delight we are following the AQL of 1.5, 2.5 or 4 point system as required.
